Dear Parents,

Lakshya Universal Academy is aware of the new millennium and its pressing demands. The prevailing times and its needs have made it imperative for the educators to take the 21st century skills very seriously. Considering the demands of the new millennium to enhance the skills of today's students to much higher levels we have decided to conduct special skill development classes for students in our school. Looking at the needs of the students in the Primary and middle school we propose to have reading and comprehension skills, speaking skills and independent writing skills for the students.

As students become proficient in these basic skills we would move to higher levels of critical thinking and other skills required to be a citizen in the global scenario.

We plan to commence the program from the 1st of December 2018. The school will provide transportation to the students who wish to take this program. The buses shall disperse at 3.30 pm on the days specified below. The parents who are keen to take up the program must register with the accounts before 15th of November. The details of the program are listed below. You can meet our new Principal Mrs. Mini Tripathi for clarification of doubts if any.
